

Creating & Developing Companies **To Improve the Human Condition**

 **Trendlines**
Agtech

TECHNOLOGY DEVELOPMENT STAGE

AquiNovo

Accelerating growth of farmed fish

Proprietary, non-GM, non-hormonal solution enhances fish growth and shortens time to optimal market weight

Nissim Chen, CEO

nissim@aquinovo.com

InPlant Technologies

Increased mobility of agrochemical actives

Delivery technologies reduce dosage and increase yield

Lenore Shoham, CEO

lenore@inplant-tech.com

ViAqua Therapeutics

Drug delivery for aquaculture

Therapeutics tailored for aquaculture

Shai Einbinder, CEO

shai.e@viaqua-t.com

Enolog Technologies

Automation for the wine industry

Advanced command and control systems for winemaking

Alice Roth, CEO

alice@enowisetech.com

MiRobot

Multi-stall robotic milking system

Fully automatic robotic arms significantly reduce labor costs and increase parlor throughput

Tal Bareket, CEO

tbareket@mirobot.co.il

www.mirobot.co.il

Virentes

Automation, innovation in plant grafting

Robotic system and new methods for grafting herbaceous plants increase yields and enable mass production

Yuval Fradkin, CEO

yuval@virentes.co.il

Hargol FoodTech

Delivering protein with edible insects

Optimized methods for growing grasshoppers in captivity

Dror Tamir, CEO

dror@hargol.com

www.tzartzar.biz

2016 Winner

Agro Innovation Lab Competition

Saturas

Stem-water potential (SWP) sensor

Embedded miniature sensor-based system optimizes irrigation reduces water consumption, and increases yields

Anat Halgoa Solomon, CEO

anat@satarus-ag.com

www.satarus-ag.com

Breakthrough Agtech Companies To Improve the Human Condition

Trendlines Agtech, Israel's most experienced agtech and foodtech incubator, teams with passionate innovators, entrepreneurs, and investors **to establish innovation-based companies focused on improved production and increased yields.** Trendlines Agtech initiated and organizes AgriVest, Israel's agtech investment conference.

AGRIVEST™

Trendlines' staff members provide business and technology development, finance, marketing communications, and administrative support — and access to its global network of investors and strategic partners.

BUSINESS DEVELOPMENT STAGE

GreenSpense

Gas-free aerosol dispensers

Propellant-free aerosols with Eco-Sleeve pressure packaging eliminate harmful gases and old metal canisters

Gadi Har-shai, CEO

gadi.harshai@greenspense.com
www.greenspense.com

2015 Sustainable Packaging

New Product Innovation

Frost & Sullivan

2013 International Cleantech

Open Ideas Competition

Valentis Nanotech

Innovative coating platform for food packaging, agtech, and more

Embedding new properties to improve the performance of films and compounds

Zvika Weiss, CEO

zvika@valentis-nano.com
www.valentis-nano.com

REVENUE STAGE

BioFishency

All-in-one aquaculture water treatment system

Low-cost, highly efficient, low-maintenance filtering system for land-based aquaculture systems (extensive, intensive, recirculated)

Cobi Levanon, CEO

cobi@biofishency.com
www.biofishency.com

EdenShield

Nontoxic insect control solutions

Natural, nontoxic pest control products mask crop odor to significantly reduce insect attraction to greenhouse crops, flowers, and cannabis

Yaniv Kitron, Co-CEO

yaniv.kitron@eden-shield.com

Guy Malchi, Co-CEO

guy.malchi@eden-shield.com
www.eden-shield.com

MemTech

Advanced membrane technologies

New ultrafiltration (UF) membrane based on a hydrophilic polymer has greater flux capacity compared to leading commercial membranes

Moshe Kelner, CEO

moshe@memtech-water.com
www.memtech-water.com

2014 Best Start-Up

Israel's Office of the Chief Scientist

Sol Chip

Renewable energy for low-power devices

The compact, maintenance-free Everlasting Solar Battery provides energy for the lifetime of low-power devices

Shani Keysar, Ph.D., CEO

shani@sol-chip.com
www.sol-chip.com

2016 Most Innovative Companies

Fast Company

2015 Most Innovative Israeli Start-Up

iNOVEX2015

2013 Best Start-Up

Israel's Office of the Chief Scientist

2013 Best Technical Dev. of Energy Harvesting

IDTechEx

Trendlines Agtech Management

Nitza Kardish, Ph.D.
CEO

More than 20 years of management experience and senior positions at life sciences and cleantech companies; research fellow at Weizmann Institute of Science

nitza@trendlines.com

Steve Rhodes
Chairman and CEO, Trendlines
Chairman, Trendlines Agtech

More than 35 years of banking, finance and investment, marketing, and management experience

steve@trendlines.com

Sarai Kemp
VP Business Development

Strong international sales, marketing, and business development experience with high-tech and agtech companies

sarai@trendlines.com

Ophir Kiraly
VP Agricultural Technologies

Significant expertise in agronomy, precision agriculture, horticulture, municipal landscaping, and leading strategic processes; career officer in the Israel Defense Forces Intelligence Unit and biology teacher

ophir@trendlines.com

09/2016
