

The Trendlines Group creates and develops companies to improve the human condition.

We are an innovation commercialization company. **Trendlines invents, discovers, invests in, and incubates innovation-based medical and agricultural technologies.** As intensely hands-on investors, we are involved in all aspects of our portfolio companies from technology development to business building. Our unique business model mitigates risks inherent to innovation-based investing to maximize returns.

The Trendlines Group is traded on the Singapore Stock Exchange (SGX:42T).

The Trendlines Model

The Trendlines Group: Proven Performance

Trendlines Medical, Trendlines Agtech, and Trendlines Labs transform great medical and agtech ideas into breakthrough companies and technologies. We leverage our business development and investment experience to take initiatives from ideation to success at high speed.
